

If you are healthy, and someone EVER has orders to keep you out of a room or a building unless you show them a digital passport, or if EVER someone won't sell you something because you choose to only use cash, then kindly & firmly tell them:

#IDONOTCOMPLY

Tell them you do not consent to having your humanity erased bit by bit.

Ask them if they fully understand the rationale behind the orders they are trying to impose. Ask who their boss is really working for. Tell them that you and they are both humans and not apocalyptic automatons. Start here to re-educate them before anyone tries to re-educate you!
